

JET RHYS HAIR

SALON GUIDELINES FOR COVID-19

- We have created a safe and sanitary environment for you, all stations will be cleaned and sanitized between appointments. We will pay special attention to all the small details like door handles. Please do your part and wash your hands and avoid touching surfaces.
- You will be asked to read and sign a screening questionnaire and agreement before services can commence.
- If you have a fever or COVID-19 related symptoms within the 14 days prior to your appointment please contact us in a timely manner to reschedule.
- **Face masks** will be required at all times in the salon. We recommend masks that go around your ears not one that secures behind your head. If you arrive without one you cannot receive services and your appointment will be considered a no show (fee may apply).
- **6 feet social distancing** measures will be followed between stations. This will mean fewer scheduling options for the time being. Please respect the social distancing between yourself and other clients around you.
- We will not be utilizing our waiting area. If your stylist is not ready when you arrive please wait in your car until you receive a text/call that your stylist is ready to see you.
- Please be on time (but not too early) as each stylist can only be with one client at a time.
- We ask you to come alone to your salon visit. No family, friends or animals (trained service animals only).
- All clients will be warmly welcomed with hand sanitizer and booties to slip over your shoes. Please wash/sanitize your hands.
- We have removed our client gowns from the salon and replaced them with capes. We recommend you wear a shirt that you don't mind being stained by product.
- As much as we love styling your hair - blow drying must be kept to simple hand drying and styling to minimize the amount of time spent in the salon.
- Conversations will be more challenging with our masks on, so we appreciate everyone's patience while we communicate as effectively as possible with you. Be aware talking tends to make masks slip and move, so its important for us all to keep our mouths and nose covered at all times.
- When enjoying our relaxing, therapeutic shampoo may we suggest removing the elastic ear bands from your mask and use your hand to temporarily secure it to your face.
- We have removed the magazines from the salon for your safety. May we suggest bringing a book, magazine, iPad and earbuds for your personal entertainment during your service.
- Beverages will not be offered until further notice; feel free to bring your own coffee, water or other beverage. We love the small details but unfortunately they will not be possible at this time.
- These policies may be subject to change as required by state and local authorities. We will keep you updated.
